

Rectification Project for Marjorie Taylor Greene

Like most of us here in Canada, I have been watching the collapse of the USA with a mixture of alarm and bewilderment. The key players in this drama seem more like Keystone cops chasing conspiracies instead of chasing their tails, with Marjorie Taylor Greene leading the way.

Marjorie Taylor Greene is an elected Federal Representative in the US, and since 2019 she has made a name for herself with her over the top conspiracy theories. She has stated quite confidently that climate change is caused by Jewish space lasers aimed at the atmosphere, and that the Parkland School shooting survivors were paid actors. Marjorie has been synonymous with the growing cult of MAGA, indeed for a time she was their mouthpiece. Her unprofessional behaviour eventually forced the party to remove her from all committee work, and that within 6 months of winning the election.

Currently, she has surprised everyone by breaking ranks with the Republican party. In an interview in early 2025 she was visibly shaken when describing testimony she had heard from female survivors of human trafficking. In the latter half of 2025 she increased pressure on the government to release the Epstein files and continue the investigation wherever it may lead. She has been under heavy criticism by the Republicans and in November revealed that she had received death threats which had been largely ignored by the administration. In late November she cut ties with the Republican party and a few days later she resigned from politics entirely.

Research

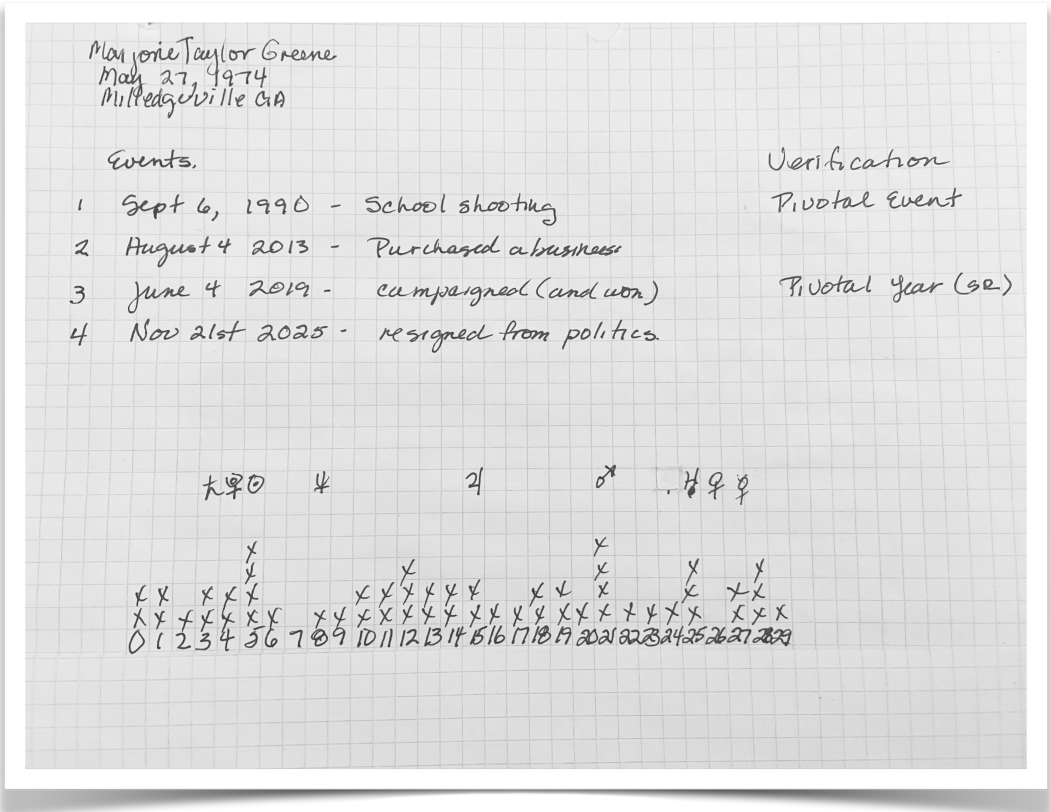

Most of my research comes from Wikipedia, and my own impressions of her from interviews and statements she has made. Marjorie is intensely private; the absence of any information regarding her early life seems unusual. Her mother is not mentioned at all and her relationship with her father seems to be transactional; when he is mentioned, it is in the context of a business arrangement. Her immediate family are not in the spotlight in any way.

Appearance and possible Ascendant

Marjorie is a forceful presence; she is large-boned and athletic, with a masculine structure to her facial features. She strides rather than walks through the halls of Congress, she is often in the lead, has been recorded physically pushing people out of her way. Outspoken, and unabashedly ill-informed, she is comfortable reiterating the most outlandish theories. Based on physicality alone I would think Taurus or Capricorn as likely ascendants, although because of her unusual beliefs I am willing to entertain Aquarius as an ascendant. Aries is also a possibility as she is forceful, dynamic, and promotes her own agenda. Marjorie is undoubtedly biased, racist and not willing to budge, but she was a successful candidate and she won her first election on her own.

Event Grid

I prefer to use events that are tied to a an actual day. Researching through Wikepedia I have found these dates:

- Sept 6, 1990 - a school shooting at Marforie’s high school that involved 53 students being held hostage
- Aug 13, 2013 - purchased and operated a Fitness centre
- June 4, 2019 - entered politics and won her 1st campaign
- Nov 21, 2025 -broke with the Republican party and resigned from politics 3 days later.

I would normally expect to have more events than 4, but I have decided to carry on, mostly due to the sparsity of information regarding Marjorie’s early years. The fact that her marriage date nor her children’s’ birth dates are available is a message in itself; intense privacy is key to Marjorie’s story.

The grid shows “ stacks” at 5° and 21°, with the Sun and Mars occupying those same stacks on her day of birth. The Moon’s range from 12:00 AM 27th of May until 12 AM on the 28th ranges from 14° to 29° Leo.

Timed Charts

After looking at the event grid, and assuming the Ascendent to be either Capricorn/Aquarius, or Aries/Taurus, the following charts stand out:

- 1:29 AM - Aquarius rising, Uranus in the 8th trine the Asc
- 4:12 AM - Aries rising, Mars in the 4th squaring the ASC
- 4:48 AM - Taurus rising, Venus in the 12th, conjunct the Asc
- 10:41 PM - Capricorn rising, Saturn opposing the Asc

A key aspect in every chart for that day is the generational opposition between Uranus and Chiron, in Libra and Aries respectively. This particular group of the 40 year opposition from the 1950's to the 1990's is currently between the ages of 50 and 55 and are actively involved in managing our society.

The Aries/Libra dynamic is to work hard to ensure equality and fairness for all with the struggle of finding the balance point, which in Marjorie's case is especially difficult because of the square to natal Mars, and the Chiron conjunction with Venus. Mars pushes the boundaries, and forces premature action, while Venus treasures and nurtures the existing wound.

Pluto is squared by Saturn, sextile to Neptune, and trine the Sun so possible Yods, T-squares and Grand Trines in the quad wheels are likely.

Data Analysis

I set up Quad wheels for each event, and for each time, in total 16 charts. This is a time consuming process. I find it important to take breaks as the mind tends to wander after 45 minutes or so. That being said, it took about a week to catalogue all of the "hits" to the events in the quad wheels. Using tabulation to catalog aspects removes any bias, and although I was leaning towards the 1:29 AM time, looking objectively at the charts the 10:41 PM chart stood out with 66 connections to the events, while the 1:29 AM, the nearest contender, stood at 43.

The 10:41 PM timed chart...

Observations

The Uranus/Chiron opposition is conjunct the 4/10 axis, squared by Mars in the 7th. This T-Square is key to the natal chart. Venus is conjunct Chiron, while Mercury trines Uranus and the MC from the 6th.

A second T-square formed by Jupiter squaring the nodal axis also highlights the 2nd house of personal values tied to a sense of fulfillment

Pluto squares Saturn in the 6th house. Hard work and ambition are key.

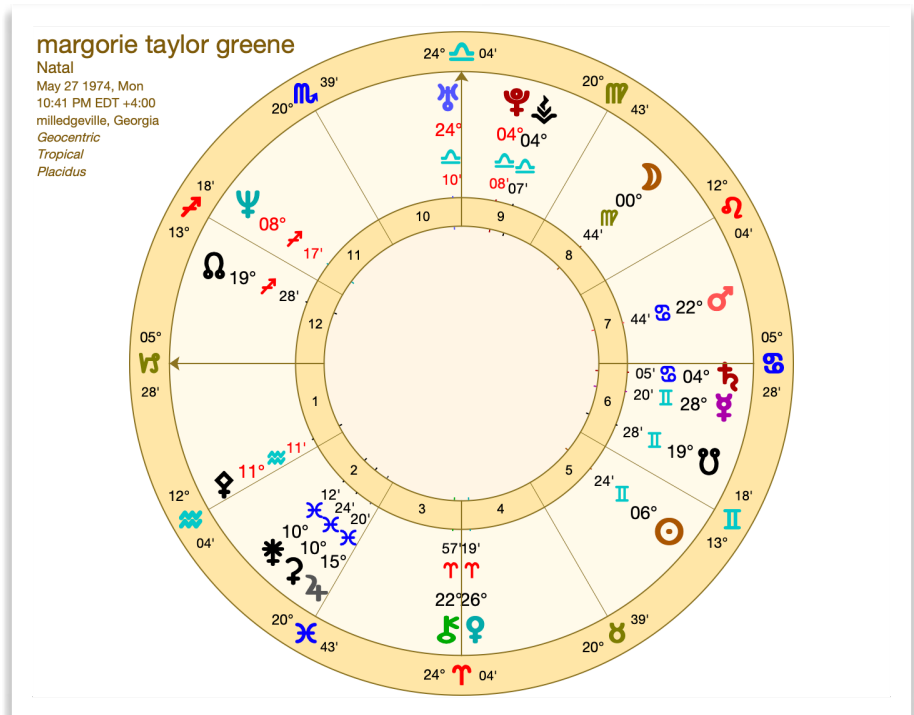

There is an Air trine between Pluto, the Sun, and Pallas, although the orb is wide ($7^{\circ}3''$ between Pallas and Pluto), in the houses of life indicating a push to thrive and survive. The Sun opposes Neptune and creates a Kite effect, with Neptune sextiling both Pallas and Pluto. I feel the possible trine and kite merit widening the orb with Pallas in the 1st.

Chart Ruler Saturn is opposing the Asc from the 6th. Hard work and a life of noble sacrifice appeal to Marjorie.

The opposition of Neptune and the Sun could indicate a lack of discernment, an ability to ignore red flags.

The Moon the 7th is in critical degree in the 8th house ruling the 7th. The Moon sextile both Saturn and Mercury in the 6th, and in a trine with Venus in the 4th. Saturn in detriment could indicate emotional immaturity or insecurity.

In addition to the 4/10, the 6/12 and the 2/8 are emphasized.

Event Wheels for Selected Chart

As Steven Forrest describes it, big events have big impacts on the angles of the charts. In the first stages of rectification, I am merely looking to the number of aspects between the timed chart and the predictive charts. Now that I have selected the time of 10:41 PM, I can take step back and look at the charts with a wider lens and visualize how each event impacts the natal.

Observations

The natal Pluto/Saturn square becomes a T-square with TR Uranus conjunct the Asc, indicating a sudden and unexpected event which could have damaged Marjorie's sense of her own power and identity.

The natal Chiron/Uranus opposition along the 4/10 are now square TR Chiron in the 7th, providing a purpose and allow possible healing through relationship and partnership. This event may have been the catalyst for Marjorie's future involvement in politics. It is interesting to note that while the natal Chiron/ Uranus opposition straddles the 4/10 axis, TR Chiron and Uranus, no longer in opposition but still opposing by sign, are activating the 1/7 (Uranus conjunct the Asc). The natal trine between Pluto and the Sun is trined by the TR North node, again emphasizing a sense of purpose.

Observations

The natal opposition of the Sun and Neptune becomes the backbone a Kite in the 5/11 axis. The Air trine with PR Pallas, natal Sun, and natal Pluto/Vesta finds its outlet in the 11th, an indicator of an underlying urge to give back to the community in some way.

Natal Pallas is also trine PR Vesta and PR Venus creating an Air trine and with natal Saturn in opposition to Pallas a 2nd Kite is formed, in the Houses of life, drive and energy to accomplish goals.

TR Saturn is now trining Natal Saturn and TR Neptune creating a third trine in Water, and with the natal opposition of Saturn and the Asc, this could be included as yet another Kite, in the houses of work.

Observations

The natal opposition of Saturn and the Asc forms the backbone of a Kite, with TR Uranus and SA Mars both trining the Asc, all in Earth signs. Marjorie's focus has found an outlet for her Saturn and she runs a successful campaign.

The Cross that is built by the natal Chiron/ Uranus is squared by TR Pluto opposing TR Ceres, indicating that the timing of this campaign brings out the best in Marjorie; the campaign is won by her forceful personality and the courage of her convictions, deluded though they might be.

TR Chiron completes a T-square with natal Saturn as the apex, and Marjorie taps into the idealism of her constituents. TR Neptune activates the natal square between Jupiter and the nodes.

Observations

This chart is dominated by the Chiron return, conjunct the 4/10 once again, opposing natal Uranus. The TR Saturn/Neptune conjunction forms a Yod with TR Uranus and natal Uranus/MC, with TR Chiron creating a Boomerang, straddling the 4/10. The first event in this project was traumatic, heralded by the first Chiron square, and here we are at the end of the journey with the Chiron return making its presence known by Marjorie's unforeseen departure from public office. This past year the Epstein files have preoccupied the American public and seem to have resonated strongly with Marjorie.

Since Chiron often symbolizes what we can do for others that we cannot do for ourselves, at its return, the victims named in the Epstein files have may have galvanized Marjorie to speak out in their defence. TR Neptune is in critical degree and about to permanently move into Aries; perhaps providing clarity for the first time since Neptune entered Pisces and triggered the Neptune/Sun opposition of the natal chart.

The second Yod also involves TR Saturn, which is inconjunct PR Mars and natal Uranus.

Quick Check - Chiron's Journey

The 10:41 PM chart, with Chiron on the IC opposing the MC, ties Chiron's journey to the to the angles. Chiron has an extreme orbit, a wide oval that moves erratically through the signs. It takes 51 years to complete its orbit, spending very little time in signs when it is closer to the Sun, longer as it moves further away.

Marjorie's first Chiron square occurred at 16, with Chiron squaring its natal position between August and September of 1990. The date of the school shooting is Sept 6, 1990 and Chiron was at 24°29' squaring the MC and natal Uranus, creating a T-square with Uranus and the Venus/Chiron conjunction, with Chiron as apex in the 7th.

- Chiron crossed the MC in 1996 the year that Marjorie graduated from college. She married shortly before graduation and subsequently raised 3 children, the first born in 1998.
- Chiron crossed the ASC in 2002, at which time the young couple purchased a general contracting company from Marjorie's father which they ran together until 2012. Marjorie was experiencing her 1st Saturn return at this time as well.

Marjorie's 3rd Chiron square in 2004 occurred between March and April, with Chiron in the 1st house, squaring the MC once again. Chiron completes a Cardinal Grand Cross by opposing natal Mars. Not much is known of Marjorie's personal life at this time although this configuration indicates there may have been some struggle to conform to a domestic role.

In 2011, Marjorie, long estranged from the catholic church, was baptized into an evangelical Christian church. It is interesting to note that Neptune entered Pisces during that time and would eventually (2014 - 2016) square her natal Sun/Neptune opposition.

In 2016 she started writing articles for a now defunct right wing newsletter, American Truth Seekers and in 2017 staged a one woman protest at a local library. The small library hosted a children's group with local transvestites reading to the children. In an interview after the protest Marjorie complained that "no one listened to her".

Her political career began in earnest in 2018 and by the time she was running for congress in 2019, she was riding the growing wave of populism, and was gaining ground.

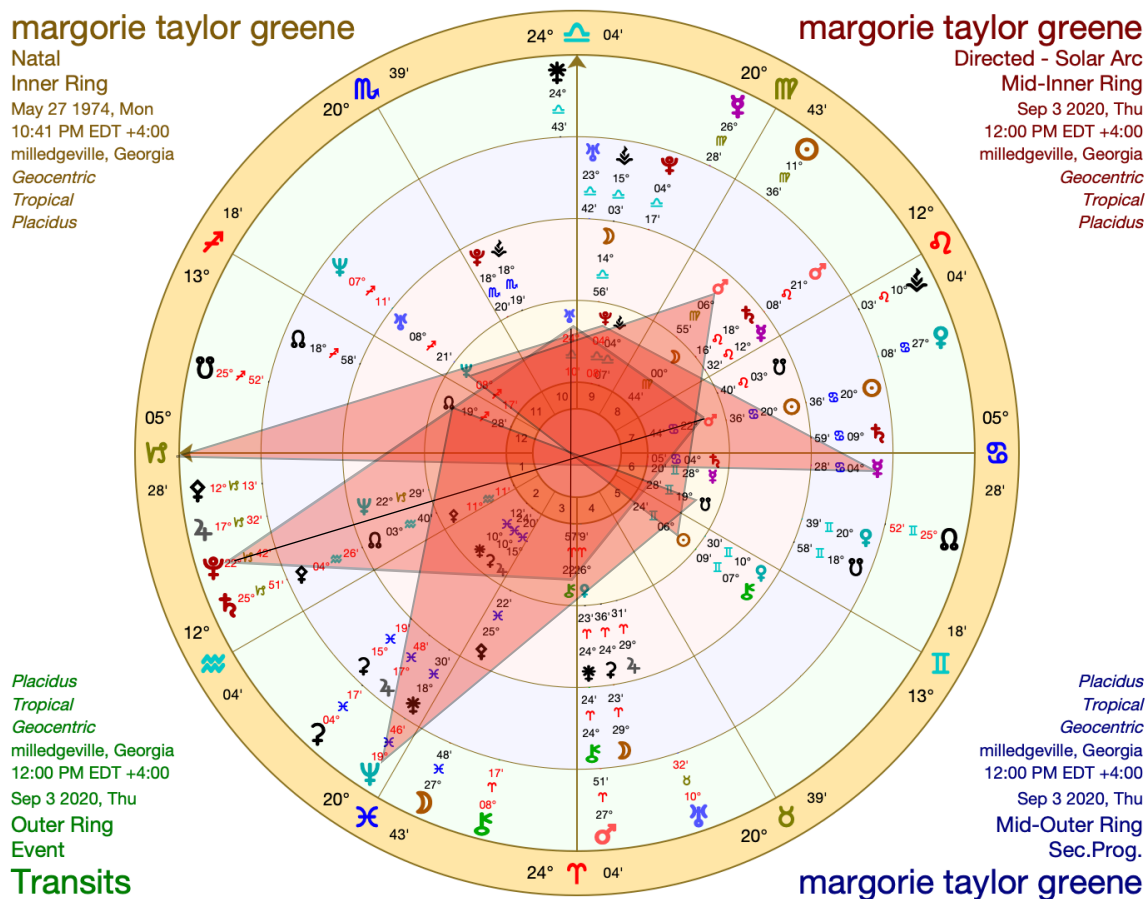

The Chiron return occurred in 2025, coinciding with her retirement from political life.

Event Chart- Sept. 3, 2020

I often hold back an event and use it as a verification tool. This event occurred months after the election, and Marjorie was determined to keep all eyes on her. She was completely behind Trump, even though she was already being marginalized by the Republican party and had been removed from all committee work.

On this date Marjorie posted a picture of herself holding an AR-15 rifle, next to a grouping of photos of the young (female) democratic representatives that the Trump administration called "The Squad", namely Alexandria-Ocasio-Cortes (NY), Ilhan Omar (MN), Rashida Tlaib(MI) and Ayanna Pressley (MA).

Marjorie declared in the caption that ""strong conservative Christians should go on the offence against these socialists who want to rip our country apart". After complaints from Nancy Pelosi, and the democratically elected "squad" members, Facebook deleted the post . The actions of Facebook infuriated Marjorie and she insisted that the democrats were trying to cancel her.

This is very active chart, full of oppositions and triggering squares. Conflict, tension and idealism all come together. Both angles are triggered as are the 2/8 and the 5/11 axes.

T-squares

Natal Sun opposing Natal Neptune squared by SA Mars

The natal opposition of the Sun and Neptune in the 5/11 axis can indicate idealism in a spiritual nature, it can also lead to disappointment and delusion. The Gemini Sun, naturally flighty is drawn into Sagittarius Neptune and can lead to a sense of grandeur, self inflation, as in the Dunning Kruger effect. Squared by SA Mars, actions are not thought out, or taken with no regard for consequence.

TR Neptune squaring the natal nodes

Natal nodes in the 6/12 axis can lead to martyrdom, a nobility in sacrifice in order to serve a goal disguised as a greater good. With Neptune squaring from the second house of personal values, this compounds the belief in one's own martyrdom. Neptune is in Pisces, but is out of orb to oppose SA Mars, but the effect of this square is very similar to the first; the nodes are also in Sag and Gemini.

PR Mercury opposing the Asc, squared by natal Pluto

Mercury opposite the Ascendant indicates a desire to communicate with others, open conversation. With natal Pluto perhaps one could instigate uncomfortable situations by discussing the "elephant in the room" or by being simply tone deaf. Pluto transforms energy and although the Libra generation is deeply invested in justice and equality, the potential for warping or manipulating energy for one's own purpose also exists.

TR Pluto opposing Natal Mars, squaring the natal Uranus/Chiron opposition (Cardinal Cross)

The generational opposition of Uranus and Chiron is reflected in society by a desire to cause change, a revolutionary effect of sudden unpredicted events being the catalyst. Each generation from the Boomers to Gen X have struggled to replace societal norms.

Squaring this already dynamic opposition which in marjorie's case is tied to the 4/10 axis comes Pluto and Mars with its own willingness to "tear down the walls". Fight, not flight is the mantra here.

Solar Returns

I'm choosing 2019 as the pivotal year for Marjorie. She successfully ran and won her first political campaign without much support or acknowledgement from the Republican Party. Her penchant for Q-Anon and her increasingly alarming right wing rhetoric struck a nerve with growing populism in America. I will look at the preceding and following years to see how the stage was set, and what the repercussions were.

The Rise of Power

Neptune opposing the Asc spurs the Trine into action. Neptune the dreamer the illusionist inspires her to greater heights as she captures the growing momentum of Trump's rhetoric and uses it as she aligns her agenda to his.

Both angles are impacted here and show that if they weren't listening before they certainly are now.

2019 Bi-Wheel Solar Return

The Reality

Again, both the Asc and the MC are activated, but this time there are 2 sets of four Squares: first the Asc opposing SR Mars, and Pluto opposing SA Chiron.

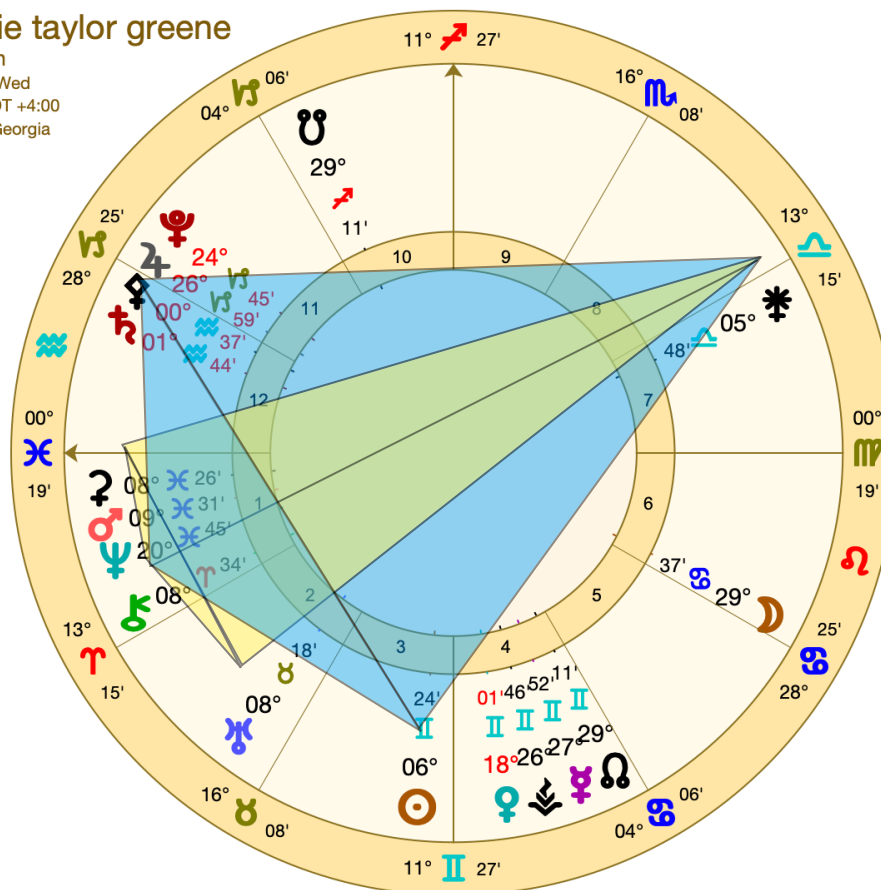

The second, affecting the MC, with natal Uranus/MC opposing natal Chiron Venus, squared by SA Pluto and natal Mars.

Mars Pluto and Chiron affecting both angles at the same time from all directions. I think this is the definition of a maelstrom. The natal chart, activated by Pluto and Mars and Chiron shows that, she certainly has the courage of her convictions, and that seems to have been enough to sway public opinion.

The Fall

The Chiron/Juno opposition dominates 2020, and re-enforces the strength of Marjorie's personality and her propensity for combativeness. What caught the imaginations of Trump supporter sprovcs difficult to tolerate day after day.

In the months that followed Marjorie's inauguration in 2020, her behaviour included, but was by no means was limited to the following:

- Repeatedly wore face masks in the halls of Congress with "Trump Won" emblazoned on them
- Raised an official objection Michigan's counting of electoral votes
- Called for an end to the violence on the January 6th also claiming that the protesters were democrats "disguised" as republicans.
- Retweeted posts from Fox News that claimed the FBI organized and participated in the Jan 6, insurrection
- Asked Donald Trump for a pardon for her actions on that day
- Filed articles of impeachment against Joe Biden on his second day in office

Chiron and the Hero's Journey

Evolutionary and humanistic astrology describe our passage through life as the Hero's journey. In Celtic mythology it is associated with the sacrifice and service of Pisces, while Neptune, its modern ruler, is associated with The Fool, the Nought card of the Tarot. This association is described in legend by Percival's tale, the only knight to ever find the highly sought after Holy Grail, only to lose it because he did not know what it was. Percival spent the rest of his life searching for it, never to find it again.

Did Marjorie begin her hero's journey in 1990 with Chiron's first square, only to lose her way and fall under the illusion of Maga America? Has her recent Chiron return restored her to a Hero's journey, or is she locked in a Fool's errand?

In truth, any timed chart on the day of Marjorie's birth would show Chiron's passage through the chart with the planets in the same signs and in the same aspects to each other. What is unique about the 10:41 PM chart is that Chiron is conjunct the 4/10 axis, tying Chiron's passage to the angles. As Steven Forrest states, big events involve the angles. Chiron crossed the MC at Marjorie's graduation from college, and the Asc when she began to work outside the home, events that marked her as an adult and a businesswoman and which also validate the 10:41 PM timed chart.

In 2012, when Neptune entered Pisces Marjorie began her solo career, leaving her father's business and purchasing a Fitness Centre, something that was more aligned with her interests.

Her political career began in 2017 with her solo protest at the local library, in the defence of what she felt were children being sexually targeted by "deviants".

Her political career began and ended in a similar fashion, in the defence of young girls. Her perception of the inappropriateness of the library readings galvanized her into action in 2017, and the human trafficking of young women by men in positions of power shook her to her core in 2024/25.

Marjorie identifies with these victims; how could she have fallen under the sway of the very men who perpetuate the violence? The plight of women and children are of no consequence to the Republican party of today...as I think Marjorie has come to realize.
